SUMMARY

Results-driven Full Stack Web Developer and final-year CSE student (AI & ML) with expertise in building scalable, database-driven applications. Proficient in modern JavaScript ecosystems (MERN) and PHP/MySQL architectures. Demonstrated success in redesigning institutional platforms, optimizing UI/UX, and engineering robust full-stack solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, jQuery, React.js
Backend & Databases: PHP, Node.js, Express.js, MongoDB, MySQL
Tools & Practices: Git, GitHub, RESTful APIs, AJAX, SEO Optimization

WORK EXPERIENCE

- MERN Stack Trainee** Jan 2026 – May 2026
Excellence Technology Hamirpur, HP
 - Undergoing intensive industrial training focused on full-stack web application architecture utilizing MongoDB, Express.js, React, and Node.js.
 - Executing modern frontend development workflows, including localized Tailwind CSS and responsive UI component design.
- Web Developer** Sep 2023 – Sep 2024
Jawaharlal Nehru Government Engineering College Himachal Pradesh
 - Spearheaded the complete redesign of the official college website, implementing responsive design principles and modern UI/UX practices.
 - Optimized website performance through efficient code implementation, reducing page load times for 2000+ students and faculty members.
 - Collaborated with administration to gather requirements and implemented features that streamline information dissemination.

KEY PROJECTS

- VerSynchs | React.js, Node.js, Express.js, MongoDB** 2026
 - Architecting a full-stack web application designed to streamline visual review processes and collaborative workflows for creative professionals.
 - Engineering RESTful APIs using Node.js and Express to manage secure user authentication, project asset states, and dynamic feedback data stored within MongoDB.
 - Developing responsive, state-driven user interfaces in React.js to handle complex DOM interactions and real-time visual annotations.
- Griham City Relocation Web Portal | PHP, MySQL, JavaScript, AJAX** 2025
 - Engineered a comprehensive platform integrating accommodation search and a roommate matching algorithm.
 - Implemented a secure authentication system for users and property owners featuring role-based access control.
 - Designed an optimized MySQL database schema to manage complex relational data for users, properties, and amenities.
- College Attendance Tracker | HTML, CSS, JavaScript, PHP, MySQL** 2023
 - Designed and developed attendance management system enabling monthly tracking for 500+ students.
 - Implemented generating attendance reports, and role-based access interfaces.
- Online Admission System | HTML, CSS, JavaScript, PHP, MySQL** 2022
 - Developed a database-driven solution to digitize polytechnic admission processes, drastically reducing manual paperwork.
 - Designed an interactive UI for student registration and created an admin dashboard for streamlined application review workflows.

EDUCATION

- Jawaharlal Nehru Government Engineering College** Aug 2023 – July 2026
Bachelor of Technology in Computer Science & Engineering (AIML) Himachal Pradesh
 - CGPA: 8.17/10
- Government Polytechnic Hamirpur** Sep 2020 – Jul 2023
Diploma in Computer Engineering Himachal Pradesh
 - Percentage: 80.09%
